- One of the most remarkable places of worship in the world is the miners' chapel Menigdd colliery, Swansea, Wales, where for more than fifty years the workers have each morning assembled for worship. This sanctuary is situated close to the bottom of the shaft. The only light is that obtained from a solitary Davy safety lamp hung over the pulpit from the ceiling, and the oldest miner in the colliery is generally chosen to officiate. It is the custom in some other places for coal miners to gather together mealtimes for prayer meeting and the like, but it is said that this is the only instance where a special apartment is fitted out in a coal mine as a chapel,
